RE: WC Docket No. 13-5 Technology Transitions Policy Task Force Seeks Comment on Potential Trials

Dear Ms. Dortch:

On September 9, 2013, Daniel Berninger, founder, Voice Communication Exchange Committee (VCXC), met with Henning Schulzrinne, CTO. Maggie McCready, VP, Federal Regulatory, Verizon also attended the meeting.

The meeting provided an update on VCXC work to convene a commercial IP transition trial limited to the types of advanced services with a potential to expand adoption and usage. The trial explores issues common to the deployment of any advanced service by means of an all-IP network platform. The advanced services category includes new SIP based open standard Video Relay Service, HD voice enabled Next Generation 911, and implementations of HD voice in the context enterprise or consumer services and Voice over LTE (Long Term Evolution).

The overall initiative seeks to raise awareness about the opportunity to serve communication needs unmet by plain-old-telephone-service. Daniel Berninger outlined the range of topics network operators identified as purposes for the advanced services trial as well as next steps in trial planning.

The open enrollment period for the Advanced Services Trial ends September 30, 2013.

In accordance with Section 1.1206(b) of the Commission's rules, this letter is being filed with your office. If you have any further questions, please contact me at (202)250-3838

Respectfully submitted

/s/ Daniel Berninger
